

Geiranger – Private Excursion – The Amazing Hike to Westerås

From the meeting point Geiranger, the bus will take you through the village and pass a.o. the Church of Geiranger and the Union Hotel. After several hairpin bends, you will arrive at 'Hole'. This is where the hike begins. In approximately 60-75 minutes you will reach Storsæterfossen, an amazingly beautiful waterfall which falls nearly 30 meters in a curve from the side of the mountain. This allows you to actually stand underneath the fall itself.

The excursion continues downhill to the farm of Westerås, a farm which was abandoned years ago due to the danger of avalanches in the winter. In the summer the farm is full of activity. When it is time to go, you will walk back to Hole, where the bus awaits you and takes you back to the village of Geiranger.
